

# Kaspersky “Ups the Ante” for Premium Malware Protection

Kaspersky Lab, a leading developer of Internet threat management solutions that protect against all forms of viruses, spyware, hackers and spam, has made significant improvements in their anti-malware technology, by significantly improving the level of protection and performance that customers have come to expect from Kaspersky.

## Better Protection

- **NEW** AV Engine for better threat detection
- **NEW** Heuristic analyzer for better zero-day protection
- **NEW** Device control blocks access to certain external devices (USB, CD/DVD, Printers, etc.)
- IPv6 support

## Better Performance

- AV engine up to 600% faster
- Uses less resource improving user productivity
- **NEW** Full Windows 7 support for enhanced performance

## Better Management

- Improved interface – easy for beginners and powerful for experts
- Expanded reporting formats (PDF, XML, SQL Views)
- Automatic “rip and replace” making deployment a snap
- Dramatically improved remote installation
- Reduced and custom restart settings
- Less clicks to complete a task

Kaspersky technology is world-renowned for its detection rates, performance and manageability. Kaspersky’s new technology is an enhancement of the already provided protection and performance enjoyed by our current customers.

Switch today and enjoy the best protection and performance available.
